**RE: Suheana SIMA**  
**March 02, 1993**

Dear Dr.Campbell,

Suheana was seen in person today for management of Gestational Diabetes and hypothyroidism. She is currently 11 weeks gestation with an EDD May 10, 2026.

**Active Medications:** SYNTHROID 50 MCG TABLET  
1/2 Tablet(s) 5 times/week X 90 Day(s) and  
1 Tablet(s) 2 times/week X 90 Day(s)  
BASAGLAR KWIKPEN 100 UNIT/ML  
**Prenatal**  
AG-SERTRALINE 50 MG CAPSULE  
Progesterone suppositories

DEC: LHW

**Current Insulin Regimen:**  
Basaglar 20 units QHS

Since last seen Suheana tells me she is moving to London, Ontario within 1 week. Fasting sugars have been improved with the start of basaglar. She is eating about a soup bowl's size of rice with dinner. She is eating protein and veggies with her meals and walking at home after meals.

**Her blood glucose trends are as follows:**  
Fasting BGs: 2/7 above target  
2hr PCB: 0/7 above target  
2hr PCL: 0/7 above target  
2hr PCD: 5/14 above target (eating out/large portions of rice)

**Physical Exam:**  
Deferred as this was a virtual appointment.

**LABS:**  
Labs completed October 21st- still pending

2025-Sep-15:  
Albumin/Creatinine (mg/mmol): **0.5**  
Creatinine (umol/L): **52**

Glomerular Filtration Rate (eGFR) ( ): **>120**  
Free T4 (pmol/L): **16**  
Glucose Fasting (mmol/L): **4.8**  
Hemoglobin A1C/Total Hemoglobin (%): **5.7**  
Thyroperoxidase Antibody (kIU/L): **15**  
Thyroid Stimulating Hormone (mIU/L): **1.71**

2025-Sep-10:  
TSH (mIU/L): **4.9**

Our plan for Suhena today is as follows:

**PLAN:**

**1) Hypothyroidism:**

**Medications:** Continue SYNTHROID 50 MCG TABLET 1/2 tab 5xwk, 1 tab 2xwk

**Repeat Labs:** prior to next follow-up

**Recent labs pending. Will call with any concerns.**

**2) GDM:** Sugars are above target after dinners due to over-consumption of rice. Advised to reduce rice portion to 1 cup only. If sugars remain above target will require dinner-time insulin.  
Continue dietary and exercise interventions.

She has requested referral to an Endo in London as she is moving next week. We will aim to refer at the Victoria Hospital if possible as is her preference. Advised to seek OB referral from you or Dr. Hashmi.

**Follow-up:** 2 weeks or pending referral to Endo in London

Thank you for involving me in the care of your patient. Please feel free to contact me if any clarifications are needed.

Yours sincerely,
