		Appointment date:	<u></u>
		Time:	<u></u>
		Chart No.:	<u></u>

Reason for consultation:

Dear colleague,

I would be very grateful if you could kindly review this patient with a hba1c of 14 despite being on Metformin 1000mg BID and sitagliptin 100mg OD for more than 4 months.

I have replaced sitagliptin with GLP-1, since he isnt keen on insulin.

I would be very grateful if you could kindly review him for the optimization of his diabetic control.

Many thanks.

Current Medications:

METFORMIN 1,000 MG TABLET Take 1 tablet twice daily Qty:180 TABLET Repeats:1
